No worries. It's your first time seeing the document. I've had a lot more time working on it.

Hi Emy, yes, my bad. For some reason my brain just focused on the fencing and didn't see the additional soil sampling. I'll try and be a better reviewer. Cheers, Fredrick

Fredrick,

Table 6 on page 42 of the draft five-year review lists soil sampling of the soil cover under item 4 in the recommendation column. Is this the table to which you are referring?

4. Ecological receptors are entering the Scrubber Sludge Ponds area	Modify fencing to prevent entrance of ecological receptors to the Site. Conduct soil sampling to determine integrity of soil cover.	Lockheed	EPA	December 2013	Yes	Yes
5. Uncertainty

Hi Emy, I see in the recommendations in the front in the draft 5-year review includes soil sampling at the scrubber

ponds but the table in the back of the report doesn't list it. I assume the table should list soil sampling at the scrubber ponds?

Cheers, Fredrick
